

Carla Goldberg and **Erica Leigh Caginalp** are together again in this aquatic inspired show "**Eventide**". Together they explore dusk in its intensified colors of the day's last light and the dark depths creeping up into the night. These diverse artists collaborated previously on an extremely successful show this past October titled "**In The Weeds**" which came about after both women were faced with different life changing events. "**Eventide**" while continuing with the aquatic theme, delves into a deeper and darker palette, unveiling the beauty hidden in the mysterious shadows.
