Opening Reception June 8, 6-9 pm at BAU
506 Main St. Beacon, NY 12508

Main Gallery

Ten Years Gone: 10-year Anniversary retrospective
Works by **Carla Goldberg**

The Beacon Room *Lukas Milanak*

This is **Carla Goldberg's** 10th anniversary at BAU. Her solo this year is a celebration of her decade of experimentations introduced at BAU with examples of works pulled from her archives. Carla always looks forward to her one chance every year (at BAU which supports experimentation) to do as she pleases, chasing ideas that culminate into one whole new series per year. Some of these series have a short life and that's okay with Carla. "It's the process that is important to my constant need to reinvent." Some series are long running like her three separate yet related signature series, Seafoam Sculptural Drawings, Ripple Effect and Aqua Marine, all began at BAU.

Lukas Milanak

The Institute of Paraphysics

Lukas Milanak is a habitual maker and hack alchemist based in Beacon, New York. His series, "The Institute of Paraphysics" is centered on creating an understanding of modern physics through a fusion of alchemy, interactivity and DIY maker culture. Each experiment in the series serves as a metaphor to time, parallel universes and quantum mechanics and other abstract physical phenomena.
